Profile

Final-year **BSc Computer Science** student at the University of Pretoria with strong skills in **backend development, cloud computing (AWS), and networking**. Passionate about building scalable systems and secure solutions. Experienced in delivering full-stack projects with **Kotlin Spring Boot, PostgreSQL, and Angular**, and eager to contribute to impactful software engineering or cloud-based roles.

Technical Skills

Backend: Kotlin (Spring Boot), Python, PHP, C++, Java, C#

Frontend: Angular, TypeScript, JavaScript, HTML5, CSS, Bootstrap

Databases: PostgreSQL, MySQL, MariaDB

Cloud & DevOps: AWS (EC2, S3, RDS, Cognito, CloudFront, VPC, Load Balancer), Ubuntu Linux, Apache, Nginx

Other: Git, Agile/Scrum, Data Structures & Algorithms, Networking

Projects

Property Management System (Team Project | Ongoing)

- Built a full-stack property maintenance app to manage contractors, budgets, and progress tracking.
- **Backend:** Developed REST APIs with Kotlin Spring Boot and PostgreSQL.
- **Cloud:** Deployed on AWS (EC2, RDS, S3, Cognito, CloudFront, Amplify).
- **Frontend:** Angular web app integrated with secure backend.

Personal Home Server (Individual Project | Ongoing)

- Converted an old laptop into a Linux-based server running Ubuntu.
- Configured Nginx to host a personal website and set up a media server.
- Applied knowledge of TCP/IP and server administration.

University Coursework Projects

- Software Engineering (COS301): Delivered a complex software project using Agile, Git, and fullstack technologies.
- Data Structures and Algorithms (COS212): Implemented efficient sorting, searching, and tree/graph algorithms in Java.

- Database Systems (COS221): Designed and optimized relational models ensuring entity integrity and normalization.

Education

BSc Computer Science | University of Pretoria

Expected Graduation: November 2025 (Ceremony April 2026)

Soft Skills

Adaptability | Teamwork | Problem-Solving | Time Management | Communication
